

RESOLUTION NO. 126/2025
OF THE SENATE OF THE UNIVERSITY OF WROCLAW
of 17 December 2025

**on the principles of recruitment to the Doctoral School of the University of Wrocław
for the training programme starting in the academic year 2026/2027**

Pursuant to Article 200, section 2 of the Act of 20 July 2018 – Law on Higher Education and Science (Journal of Laws 2024, item 1571), it is resolved as follows:

§ 1.1. The Senate of the University of Wrocław lays down the rules and procedures for recruitment to the Doctoral School of the University of Wrocław, hereinafter referred to as the Doctoral School.

2. Recruitment is conducted through a competition.

3. Recruitment is conducted within the Doctoral Colleges of the Doctoral School (hereinafter referred to as colleges), as defined by the appropriate ordinance of the Rector of the University of Wrocław, educating in specific scientific disciplines.

4. Detailed conditions and mode of recruitment to the Doctoral School in the academic year 2026/2027, for particular disciplines in colleges, are defined in appendixes no. 1-20 to this resolution.

5. The deadlines for registration of candidates and the detailed schedule of qualification proceedings for particular colleges, including the deadlines for the submission of documents and the admission limits, are specified in the appropriate ordinances of the Rector of the University of Wrocław.

6. Apart from the admission limits referred to in section 5, candidates for whom funding for a doctoral scholarship is provided from sources other than the subsidy (e.g. research projects, programmes, etc.) may be admitted. This funding should also cover the costs of social security contributions payable by the University.

7. For the candidates referred to in section 6, separate recruitment outside the schedule referred to in section 5 may be announced, with the consent of the Rector, considering additional requirements related to the implementation of the project, programme, etc. The recruitment conditions specified in the appendixes to this resolution shall also apply accordingly to these candidates.

8. Admission of a person referred to in section 6 is conditional on the submission of the documents required for admission to the Doctoral School, including documents evidencing the funding awarded to cover the costs of education, and obtaining at least the minimum score in the recruitment process, as well as meeting the requirements on which the funding is conditional.

§ 2.1. The admission procedure is conducted by admissions committees appointed for each college by the appropriate dean from among the members of the appropriate Scientific Discipline Council.

2. When appointing the admissions committee, the chairperson, vice-chairperson (if applicable) and examiners shall be identified. The chairperson and vice-chairperson of the admissions committee may also act as examiners. A secretary, who will not be a member of the committee, may be appointed to provide administrative support to the committee.

3. The admissions committee shall be composed of academic staff representing the scientific disciplines in which the college provides education, at least two from each discipline, including the head of the college if he/she is a member of the Scientific Discipline Council. At the request of the chairperson of the admissions committee, the dean may additionally appoint as a member of the admissions committee a manager of a research project, programme, etc., in the implementation of which the person referred to in § 1, section 6 will be involved (provided that the person meets the condition set forth in section 1).

4. The chairperson of the admissions committee has the right to invite, in an advisory capacity, specialists to support the work of the committee. At the request of the competent body of the Doctoral Student Self-Government, a representative of doctoral students may participate in the work of the committee as an observer.

5. In the event of circumstances preventing a member of the admissions committee from taking part in its work directly, the Dean shall appoint a new member in his/her place.

6. The composition of the admissions committee shall be made public by the appropriate Dean prior to the commencement of the admission procedure.

§ 3.1. A member of the admissions committee is obliged to inform the chairperson of any circumstances that might affect his/her impartiality and objectivity in assessing a candidate for the Doctoral School.

2. The chairperson of the admissions committee may decide to exclude a committee member from the assessment procedure of a given candidate if his/her participation could raise justified doubts about his/her objectivity and impartiality, in particular, if the committee member:

- 1) plans to take on the duties of a supervisor or assistant supervisor of the candidate;
- 2) was the supervisor of the candidate's master's or bachelor's thesis;
- 3) is the candidate's superior or is in another employment relationship with the candidate;
- 4) the candidate is or was his/her spouse or is a relative or relative by affinity up to the second degree or runs a led joint household.

3. A member of the admissions committee may also be excluded upon a reasoned request.

4. The exclusion of a member of the admissions committee from the assessment of a given candidate shall be recorded in the minutes of the meeting of the committee.

§ 4.1. The aim of the admission procedure is to select the best candidates for education at the Doctoral School of the University of Wrocław.

2. The assessment of a candidate for admission to the Doctoral School is conducted by the members of the admissions committee: all of them or those indicated by the chairperson of the admissions committee.

3. In colleges providing education in more than one discipline, the assessment of a given candidate in the admission procedure is primarily conducted by the committee members representing the appropriate discipline. Section 2 is applied accordingly.

4. The admissions committee assesses the candidate's aptitude, skills and achievements for study at the Doctoral School. This assessment is based in particular on: previous documented scientific achievements to date, a preliminary research project, and the result of qualifying examinations.

§ 5. The tasks of the admissions committee include, in particular:

- 1) notifying candidates of the date and place of the qualification proceedings;
- 2) conducting the qualification procedure;
- 3) receiving and verifying the completeness of candidates' documents;
- 4) admitting candidates to the Doctoral School within a given college, subject to the stipulation referred to in § 13, section 3, taking into account the determined admission limit;
- 5) taking administrative decisions on refusal of admission to the college in question, subject to § 14, section 1;
- 6) examining applications for reconsideration of a case and giving opinions on complaints lodged by candidates in relation to the admission procedure;
- 7) preparing documentation of the admission procedure:
 - a) descriptive minutes of the admissions committee signed by the chairperson and all members of the admissions committee;
 - b) individual minutes;
 - c) a ranking list of candidates taken part in the admission process to a given college (based on the results of the admission procedure);
 - d) the list of persons admitted to the Doctoral School at a given college (in the case of Polish citizens);
 - e) the list of persons qualified for admission to the Doctoral School at a given college (in the case of foreigners);
 - f) the list of persons not admitted/not qualified for admission to the Doctoral School, together with the reasons for refusal of admission to the Doctoral School;
- 8) announcing the ranking list of the admission procedure and the list of persons included in the list of doctoral students of the Doctoral School at a given college.

§ 6.1. To the qualification procedure in the chosen discipline, may be admitted a candidate who:

- 1) registering in the Internet Registration of Candidates (IRK);
- 2) holds a master's degree, master of engineering degree or an equivalent degree awarded on the basis of separate regulations or, in a case justified by the highest quality of scientific achievements, is a graduate of first-cycle studies or a student who has completed the third year of long-cycle studies;
- 3) paid a recruitment fee of PLN 150 for each discipline chosen;
- 4) submitted the required set of documents.

2. The registration procedures in the IRK and the organisation of the recruitment process to the Doctoral School at the University of Wrocław are defined by the relevant ordinance of the Rector of the University of Wrocław.

§ 7.1. A candidate for the Doctoral School is obliged to provide a photocopy of the diploma with the original to be inspected in order to confirm its conformity by the University of Wrocław or a notarised copy of this document or a certificate of completion of studies together with other required documents at a given college of the Doctoral School, within the deadline specified in the recruitment schedule.

2. In the case of failure to submit the complete set of required documents within the specified time, the admissions committee will refuse to admit the candidate to the Doctoral School.

3. Diplomas obtained abroad require authentication in the form of either legalisation or apostille.

4. A candidate applying for admission to the Doctoral School is obliged to submit a translation into Polish (or, additionally, into English) of those documents for which such a requirement is indicated in the detailed recruitment rules set out in appendixes no. 1-20 to this resolution. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Minister of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul.

5. A detailed list of the required documents at each college of the Doctoral School is set out in appendixes 1-20 to this resolution.

§ 8.1. All personal data provided by candidates are processed and stored for the purpose of registration in accordance with applicable legislation and are subject to protection.

2. If a candidate is enrolled as a doctoral student, the data used in the recruitment process will be transferred to the University of Wrocław's IT systems, including in particular the USOS system, and will be processed in accordance with other applicable regulations for the purpose of organising and ensuring the proper course of education at the Doctoral School.

§ 9. Candidates with identified disabilities shall, upon their request, be provided with assistance and accommodations in the recruitment process according to their individual needs.

§ 10. People who are not Polish citizens may undertake and pursue education at the Doctoral School according to the rules set out in Section VIII of the Act of 20 July 2018 – Law on Higher Education and Science and the detailed rules of admission set out in the appendixes to this resolution.

§ 11.1. In justified cases, the recruitment procedure can be conducted remotely with the use of commonly available means of electronic communication, ensuring control of the proceedings and their registration and allowing for the secrecy of votes.

2. If a remote interview is scheduled via instant messenger, the candidate's written consent to the electronic recording of the interview must be sent to the address of the recruitment committee's secretary or chairperson before the interview.

3. If a candidate is unable to submit the original documents directly before the exam or interview, the electronic version of the required documents attached to the IRK system will be considered. The candidate is obliged to ask in advance the chairperson or secretary of the admissions committee for permission to attach the documents in electronic version, stating the reason for not being able to directly submit the documents in a paper version.

4. In the case of a situation referred to in section 3, a possible positive decision on admission to the Doctoral School of a candidate who is not a Polish citizen will be conditional, specifying the deadlines for the submission of the original required documents or their notarised

photocopies. Entry to the list of the remaining candidates will take place after submission of documents in the form specified in § 7 section 1, within the deadline specified in the recruitment schedule.

§ 12.1. The results of the recruitment procedure are public and subject to publication.

2. The ranking list drawn up by the committee shall include:

- 1) names and surnames of the candidates;
- 2) the final result of the candidates' evaluation;
- 3) an indication of whether the candidate has been shortlisted for entry into the Doctoral School (in the case of Polish citizens) or if he/she is qualified to accept (in the case of foreigners)

3. The chairperson of the admissions committee signs the ranking list. Any deletions or changes made to the ranking list after it has been signed should include a justification and be confirmed by the signature of the chairperson of the admissions committee.

4. The candidate receives information about the result of the recruitment process to his/her personal registration account in the IRK system.

5. The ranking list referred to in section 2, together with a descriptive report, the list of those accepted and those not accepted at a given college (in case of Polish citizens) or the list of those qualified or not qualified (in case of foreigners) is communicated by the admissions committee to the Vice-Rector for Research. The admissions committee publishes this list in a publicly accessible place appropriate for a given college and on the unit's website. The ranking list should include the date of the announcement.

§ 13.1. The admissions committee shall announce the list of people admitted to a given college immediately after the limit of admission by candidates entered on the list of doctoral students of a given college, but not later than on 25 September 2026.

2. In the event of a vacancy in the list of doctoral students admitted to a particular college, a person from the ranked list shall be included in the list of doctoral students of that college, taking into account the order resulting from the admission procedure, but no later than the end of the first month of the academic year.

3. In the case of candidates who are not Polish citizens, entry into the list of doctoral students at a given college takes place on the basis of an administrative decision admitting a candidate to the Doctoral School, issued by the Rector or a person authorised by the Rector.

4. The final list of people accepted to the Doctoral School is published on the University of Wrocław website.

5. In the event of the limit of places remaining unfilled, additional recruitment for a given programme of study at the Doctoral School may take place at the written request of the chairperson of the admissions committee, with the opinion of the dean, addressed to the Vice-Rector for Research, and in accordance with the recruitment schedule set by the admissions committee.

§ 14.1. Admission to the Doctoral School is refused by an administrative decision signed by all members of the committee and, in the case of candidates without Polish citizenship, by the Rector or a person authorised by the Rector, delivered to the candidate in accordance with the general rules.

2. The candidate has the right to submit a request for reconsideration within 14 days of the delivery of the decision to refuse admission to the Doctoral School. The candidate may also, within 30 days from the date of delivery of the decision, file a complaint with the Provincial Administrative Court in Wrocław through the admissions committee (in the case of candidates without Polish citizenship, through the Rector), without having to submit a request for reconsideration.

3. The basis for the application may only be the indication of the violation of the rules and procedures of admission to the Doctoral School within a given college. The application should indicate precisely the provisions defining the conditions or procedure for recruitment, which, in the opinion of the candidate, have been violated, and include a concise explanation of the alleged violation

4. The application referred to in section 3 shall be considered by the admissions committee, and in the case of persons of non-Polish nationality by the Rector, after obtaining the opinion of the admissions committee.

5. The granting in full of the application referred to in section 2 results in an administrative decision to overturn the decision to refuse admission of the candidate to the Doctoral School and subsequently in the candidate's entry into the list of doctoral students of the respective college

of the Doctoral School. In the situation of filling the limit of admission, the chairperson of the admissions committee shall apply to the Vice-Rector for permission to exceed the limit set for a given college.

6. The decision of the admissions committee, and in the case of non-citizens, the decision of the Rector is final. It may be appealed against to the Provincial Administrative Court.

§ 15. The resolution comes into force on the day of its adoption.

Chairperson of the Senate of the University
of Wrocław
Rector: *prof. R. Olkiewicz*

4.	Assessment criteria	Admission to the Doctoral School is determined by the competition score expressed in points. Points are awarded for: the dissertation project accepted by the proposed supervisor, previous scientific achievements and activities in the student scientific movement, answers during the oral qualifying examination to questions concerning the dissertation project and the candidate's general knowledge in the scientific discipline.
	Specific assessment criteria	The following scores are set for the dissertation project, research achievement and preliminary examination: 1. Preliminary dissertation project. Acceptance by the proposed supervisor; volume of 20-40,000 characters

		<p>with spaces, content including at least: introduction and statement of the research problem with justification, review of the literature on the subject, methodology and research methodology; planned content of the dissertation, Harvard-style bibliography. Total 0-30 points.</p> <p>2. Scientific publications. Include a copy of the publication or a certificate of acceptance for publication:</p> <p>a. 5 points - articles published in journals in the Scopus, Web of Science, ERIH Plus databases and author's monographs published in publications from the list of the Ministry of Science and Higher Education,</p> <p>b. 3 points - other articles in journals on the list of journals of the Ministry of Science and Higher Education, or chapters in collective works published in publications on the list of the Ministry of Science and Higher Education,</p> <p>c. 1 points - other scientific publications. Total 0-10 points.</p> <p>3. Participation in research projects. Include confirmation of participation from the project manager or award decision.</p> <p>a. 3 points - the role of contractor or manager in projects of NCN, NCBiR, MNISW, H2020, ERC, European Commission and other foreign institutions and organisations;</p> <p>b. 1 point - contractor's or manager's role in other projects. Total 0-5 points.</p> <p>4. Activity in scientific circles, participation in conference organising committees or activities popularising science. A certificate from the organisers of the event and, in the case of scientific circles, a certificate issued by the supervisor of the scientific circle should be enclosed. The Commission awards a number of points based on a qualitative assessment of the achievements. Total 0-5 points.</p> <p>5. Active participation in scientific conference (with paper, poster, etc.) Include the conference programme and a certificate/confirmation from the organisers.</p> <p>a. 1 point - student-doctoral conference,</p> <p>b. 2 points - Polish national/wide conference,</p> <p>c. 3 points - international conference (min. 30% of participants with papers from outside the organiser's country). Total 0-5 points.</p> <p>6. Academic scholarships and prizes awarded within and outside the University, participation in student exchange programmes (Erasmus+, Most, other) Certificate, acknowledgement or diploma must be attached. The Commission awards a number of points based on a qualitative assessment of the achievements. Total 0-5 points.</p> <p>7. Preliminary examination - discussion of the submitted dissertation project. Total 0-20 points.</p>
--	--	---

		8. Preliminary examination - assessment of general knowledge in the discipline. Questions drawn at random from the list of examination topics. Total 0-20 points .
	Minimum number of points required to be successful in the recruitment procedure	60
	Maximum number of points possible to obtain during the recruitment procedure	100
5.	Language of the recruitment procedure	Polish, English
6.	Required documents	<ol style="list-style-type: none"> 1. an application for admission to the Doctoral School, printed out from the IRK system, signed by the candidate, together with consent to the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School; 2. a photocopy of the diploma of completion of a second-cycle or long-cycle studies or equivalent, with the original to be submitted for verification by the university. Diplomas obtained abroad require authentication in the form of legalisation or apostille. Recipients of the "Pearls of Science" programme submit a photocopy of their first-cycle studies diploma (with the original for inspection to confirm compliance by the university) or a certificate from the dean's office on completion of the third year of a long-cycle studies, together with a certificate confirming their status as a recipient of the "Pearls of Science"; 3. a written opinion of a scientific supervisor selected from among independent scientific workers of the Faculty of Social Sciences at the University of Wrocław on the dissertation project together with a declaration of taking the candidate under scientific supervision; 4. preliminary dissertation project; 5. a certificate or confirmation of English language proficiency at B2 level or equivalent (FCE, TOEFL, IELTS 5.5-6.0, BEC Vantage and other equivalent international certificates); candidates for whom English was the language of instruction at a previous level of education or is their mother tongue are exempt from the requirement to present a certificate; 6. a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School 7. confirmation of payment of the recruitment fee. <p>documents should be submitted in Polish or English</p> <p>Foreigners additionally submit:</p> <ol style="list-style-type: none"> 1. a translation into Polish of the diploma or other document entitling the student to study at the Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Ministry of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul;

		<p>2. a photocopy of a document confirming legalisation of residence with the original to be presented for verification. It is possible for a candidate to be admitted to the qualification examination without a photocopy of the document confirming the legalisation of residence and to provide it only in the event of a positive outcome of the entrance examination.</p>
<p>7.</p>	<p>Top quality achievements</p>	<p>For candidates with "Pearls of Science" recipient status applying for admission to the College, a qualitative assessment of academic achievement of the highest quality is made, which includes:</p> <p>1) authorship or co-authorship of a scientific monograph or a chapter in a scientific monograph published by a publishing house included in the list of publishing houses drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 - Law on Higher Education and Science;</p> <p>2) authorship or co-authorship of a scientific article published in a scientific journal or in peer-reviewed materials of international conferences included in the list of such journals and materials drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 - Law on Higher Education and Science;</p> <p>3) significant participation, under the guidance of an academic supervisor, in a research project of a high level of innovation, carried out by the university in which the student is or was studying, including participation in a research project financed as part of a national or international competition;</p> <p>4) authorship of a scientific paper on highly innovative research and its presentation at a prestigious national or international scientific conference organised by an entity referred to in Article 7(1) of the Act of 20 July 2018 - Law on Higher Education and Science, a foreign university or a foreign scientific institution;</p> <p>5) winning an individual prize or making a significant contribution to an achievement for which a team prize has been won in a prestigious international competition involving students from at least five countries, excluding competitions organised as part of international scientific conferences;</p> <p>Total 0-30 points.</p>

4.	Assessment criteria	<ol style="list-style-type: none"> 1. Candidates will be admitted to the Doctoral College of Political Science and Administration on a competitive basis, within the limit of places available. 2. Admission to the Doctoral College of Political Science and Administration is determined by the competition score expressed in points. 3. Points are awarded for: the dissertation project accepted by the proposed supervisor, previous scientific achievements and activities in the student scientific movement, answers during the oral qualifying examination to questions concerning the dissertation project and the candidate's general knowledge in the scientific discipline. 	
Specific assessment criteria			
	1. Preliminary dissertation project	Acceptance by the proposed academic supervisor; Volume of 20,000-40,000 characters with spaces, content including at least: Introduction and statement of the research problem with justification, review of the literature on the subject, research methodology and methodology; planned content of the dissertation, Harvard-style biography.	0-30 points
	2. Scientific publications	<p>Include a copy of the publication or a certificate of acceptance for publication:</p> <ol style="list-style-type: none"> a. 5 points - articles published in journals indexed in Scopus, Web of Science, ERIH Plus databases, as well as author's monographs and chapters in monographs published in publications included in lists drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 – Law on Higher Education and Science; b. 3 points - other articles in journals or chapters in collective works published in publications included in the lists drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 – Law on Higher Education and Science; c. 1 points - other scientific publications. 	max.10 points

	3. Participation in research projects	Include confirmation of participation from the project manager or award decision. a. 3 points - the role of contractor or manager in projects of NCN, NCBiR, MNiSW, Horyzont, ERC, European Commission and other foreign institutions and organisations; b. 1 point - contractor or manager role in other projects.	max. 5 points
	4. Activity in scientific circles, participation in organising committees of conferences or activities popularising science	A certificate from the organisers of the event and, in the case of scientific circles, a certificate issued by the supervisor of the scientific circle should be enclosed. The Commission awards a number of points based on a qualitative assessment of the achievements.	0-5 points
	5. Active participation in scientific conferences (with paper, poster, etc.)	Include the conference programme and a certificate/confirmation from the organisers. a. 1 point - student-doctoral conference, b. 2 points - Polish national/wide conference, c. 3 points - international conference (min. 30% of participants with papers from outside the organiser's country).	max. 5 points
	6. Academic scholarships and prizes awarded within and outside the University, participation in student exchange programmes (Erasmus+, Most, others)	Include a certificate, confirmation or diploma. The Commission awards a number of points based on a quality assessment of the achievements.	0-5 points
	7. Preliminary examination - discussion of the submitted dissertation project.	Questions relating to the aspects described in the submitted dissertation project.	0-20 points
	8. Qualifying examination - assessment of general knowledge in the discipline of Political Science and Administration	Random questions, arranged with reference to the exam questions given.	0-20 points
	Minimum number of points required to be successful in the recruitment procedure	60 points	
	Maximum number of points possible to obtain during the recruitment procedure	100 points	
5.	Language of the recruitment procedure	Polish, English	
6.	Required documents	<ol style="list-style-type: none"> 1. an application for admission to the Doctoral School, printed out from the IRK system, signed by the candidate, together with consent to the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School; 2. a photocopy of the diploma of completion of second-cycle or long-cycle studies or another document entitling the candidate to apply for admission to the Doctoral School (the original will be available for inspection to confirm conformity with the original); in the case of a diploma obtained outside Poland, an apostille or legalisation of the document is required; 	

		<p>recipients of the "Pearls of Science" programme submit a photocopy of the diploma of completion of the first-cycle studies (with the original for inspection to confirm compliance by the university) or a certificate from the dean's office on completion of the third year of long-cycle studies, along with a certificate confirming the achievement of the status of the recipients of the "Pearls of Science"</p> <ol style="list-style-type: none"> 3. a written opinion of a scientific supervisor selected from among independent scientific workers of the Faculty of Social Sciences at the University of Wrocław on the dissertation project together with a declaration of taking the candidate under scientific supervision; 4. preliminary dissertation project; 5. a certificate or confirmation of English language proficiency at B2 level or equivalent (FCE, TOEFL, IELTS 5.5-6.0, BEC Vantage and other equivalent international certificates); candidates for whom English was the language of instruction at a previous level of education or is their mother tongue are exempt from the requirement to present a certificate; 6. a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School 7. confirmation of payment of the recruitment fee. <p>Documents should be submitted in Polish or English. Foreigners additionally submit:</p> <ol style="list-style-type: none"> 1. a translation into Polish of the diploma or other document entitling the student to study at the Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Minister of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul. 2. a photocopy of a document confirming the legalisation of your stay (original to be presented for verification). It is possible for a candidate to be admitted to the entrance examination without a photocopy of the document confirming the legalisation of residence and to provide it only in the event of a positive outcome of the entrance examination.
<p>7.</p>	<p>Top quality achievements</p>	<p>In the case of candidates with the recipient status of the "Pearls of Science" programme applying for admission to the College, the following scientific achievements of the highest quality are subject to qualitative assessment:</p> <ol style="list-style-type: none"> 1. authorship or co-authorship of a scientific monograph or a chapter in a scientific monograph published by a publishing house included in the list of publishing houses drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 – Law on Higher Education and Science; 2. authorship or co-authorship of a scientific article published in a scientific journal or in peer-reviewed

		<p>materials of international conferences included in the list of such journals and materials drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 – Law on Higher Education and Science;</p> <ol style="list-style-type: none"> 3. significant participation, under the guidance of an academic supervisor, in a research project of a high level of innovation, carried out by the university in which the student is or was studying, including participation in a research project financed as part of a national or international competition; 4. authorship of a scientific paper on highly innovative research and its presentation at a prestigious national or international scientific conference organised by an entity referred to in Article 7(1) of the Act of 20 July 2018 - Law on Higher Education and Science, a foreign university or a foreign scientific institution; 5. winning an individual prize or making a significant contribution to an achievement for which a team prize has been won in a prestigious international competition involving students from at least five countries, excluding competitions organised as part of international scientific conferences; 6. the practical application of the results of the research or development work, including a patent application, an awarded patent or the implementation of the results of the scientific activity in another form.

Scientific discipline		History
RECRUITMENT RULES		
1.	Form of the recruitment procedure	Qualification interview
2.	Content of the recruitment examination	Knowledge of the basic methodological problems of the discipline of history and of the literature and source materials of the chosen research specialisation.
3.	Recommended literature	–
4.	Assessment criteria	Recruitment takes the form of a competition. Admission to the College of the Doctoral School of History is determined by the sum of points achieved by candidates in the admission procedure. On this basis, a ranking list is drawn up.
	Specific assessment criteria	<p>Detailed rules for awarding points in the qualification procedure:</p> <ol style="list-style-type: none"> 1. an assessment of the candidate's general preparation in terms of knowledge of the basic methodological problems of the discipline of history and of the literature and source materials in the field of the chosen research specialisation: 0-5 points; 2. evaluation of the preparation of the research project outline: 0-3 points; 3. points for the master's or bachelor's thesis in the case of "Pearls of Science" recipients (equal to its grade, increased by 1 point in the case of a good grade, 1.5 points - good with plus and 2 points in the case of a very good grade): 5-7 points; 4. points for the average of first- and second-cycle studies or long-cycle studies (in the case of "Pearls of Science" recipients, points for the average grade of first-cycle studies) - rounded up to hundredths after the decimal point according to generally accepted rules: 3-5 points; 5. credits for a second field of study (studies in line with the chosen research field): 0-1 points (first-cycle studies completed - 0.5 point, second-cycle studies completed - 1 point); 6. participation in research projects: NCN, NPRH, MNiSW, NCBiR leadership role 5 points; contractor role 3 points; obtaining positive reviews of the proposal submitted as head of NCN, NPRH, NCBiR grants at the level of 70% without referral for funding 1 point; 7. points for the candidate's scholarly activity, including publications, publications in print, participation in conferences, and dissemination activities, if any: 0-7 points. A candidate can achieve a maximum of 28 "small" points, divided by 4 gives a total of 7 "big" points. <p>Credit for individual elements of the candidate's scientific activity:</p> <ol style="list-style-type: none"> a. activity for the benefit of the University of Wrocław in the area falling within the discipline of History -

		<p>max. 0.5 point (participation in works for the benefit of the Historical Institute at least 2 times);</p> <p>b. organisation of scientific conference chairperson, secretary or member of organising committee/section/panel] - max 1 point (once: 0.5 point, twice: 1 point);</p> <p>c. organisation of student scientific conference chairperson, secretary or member of the organising committee/section/panel] - max 0.5 points (once: 0.25 point, twice: 0-5 point)</p> <p>d. participation in student and doctoral conferences - max 1 point (0, 25 point for each, not more than 4);</p> <p>e. participation in scientific conferences (at least 50% of participants with a doctoral degree and above) - max 2 points (0.5 points for each, not more than 4 conferences);</p> <p>f. articles in peer-reviewed student journals and compact publications - max 1 point (0.25 points each, not more than 4 publications);</p> <p>g. articles in peer-reviewed student journals and compact publications accepted for publication - max 0.5 point (0.2 point for one, 0.3 for two, 0.4 for three, 0.5 for four articles accepted for publication);</p> <p>h. articles in peer-reviewed papers and scientific journals - max 4 points (1 point for each, not more than 4 articles);</p> <p>i. articles in peer-reviewed papers and scientific journals, accepted for publication (after review) - max 2 points (0.5 points for each, not more than 4 articles);</p> <p>j. book by one author with scientific apparatus, peer-reviewed, at least 6 sheets - 5 points (not more than one)</p> <p>k. book of one author with scientific apparatus accepted for publication, with positive review of at least 6 sheets - 3 points (not more than one)</p> <p>l. co-authored book with scientific apparatus, peer-reviewed, at least 6 sheets - (not more than one) - 1 point (max two authors)</p> <p>m. co-authored book with scientific apparatus, accepted for publication, with positive review, at least 6 sheets - (not more than one) - 0.5 point (max two authors)</p> <p>n. editorial work of a publication with scientific apparatus, peer-reviewed, at least 6 sheets (not more than one) - 1.5 point (max two editors)</p> <p>o. editorial work of a student publication with scientific apparatus, peer-reviewed, at least 6 sheets (not more than one) - 0.5 point (max two editors)</p> <p>p. editorial work of a publication with scientific apparatus, peer-reviewed, at least 6 sheets (not more than one) in print - 0.95 point (max two editors)</p> <p>q. editorial work of a student publication with scientific apparatus, peer-reviewed, at least 6 sheets (not more than one) in print - 0.55 point (max two editors)</p>
--	--	--

		<p>r. a trip within the framework of the Erasmus program, a foreign scientific scholarship (at least 2 months) or a prestigious national scholarship (including the Scholarship of the Minister of Science and Higher Education) - 2 points</p> <p>s. popularisation activities - 0.5 point (articles consistent with the proposed topic of the dissertation or related to the thesis in the press and online publications - at least 5 articles; popularisation of history in the form of a lecture or workshop for schoolchildren or the local community - at least 3 times)</p> <p>Total, maximum 28 "small" points = 7 "large" points.</p> <p>8. points for achieved language proficiency (for graduates of second-cycle or long-cycle studies B2+ level required; for recipients of the "Pearls of Science" programme /a non-graduate of the second degree/ at the B2 level) in a language useful for a doctorate (or one of the congressional languages), certified by a certificate from the Foreign Languages Centre of the University of Wrocław on language proficiency at the B2+ level for graduates of the second-cycle studies or long-cycle studies; for recipients of the "Pearls of science" programme/a non-graduate of the second-cycle studies/at the B2 level. Foreign certificates in possession, as well as any other certificates certifying current knowledge of the language, are recognised provided that they are accompanied by a document from the Foreign Languages Centre at the University of Wrocław, certifying the authenticity of the document, knowledge of the language at the level B2+for graduatesofsecond-cycle studies or long-cycle studies (in the case of recipients of the "Pearls of Science" programme /and not graduates of second-cycle studies/ at the B2 level), as well as suggesting the number of points due: 0-5 points.</p>
	Minimum number of points required to be successful in the recruitment procedure	20
	Maximum number of points possible to obtain during the recruitment procedure	38
5.	Language of the recruitment procedure	Polish
6.	Required documents	<p>1) an application for admission to the Doctoral School, printed out from the IRK system, signed by the candidate, together with consent to the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School;</p> <p>2) a photocopy of a diploma of completion of a second-cycle studies or a long-cycle studies or equivalent (in the case of recipients of the "Pearls of Science" programme, a diploma of completion of a first-cycle studies or a certificate from their dean's office on completion of the third year of a long-cycle studies and a supplement to the diploma containing a list of subjects completed with grades) with the original to be inspected to confirm conformity by the university. Diplomas obtained abroad require authentication in the</p>

		<p>form of legalisation or apostille. In the case of failure to provide these documents within the specified time, the admissions committee will refuse to admit the candidate to the Doctoral School;</p> <ol style="list-style-type: none"> 3) a statement by the planned supervisor that he/she will undertake the supervisor's care if the candidate is enrolled as a doctoral student; 4) a certificate of the average grade of the first- and second-cycle studies or of long-cycle studies (in the case of the recipients of the "Pearls of Science" programme of the first-cycle studies or a certificate from their dean's office of the completion of the third year of the long-cycle studies with the average marks); 5) certificate on the evaluation of the master's thesis (in the case of recipients of the "Pearls of Science" programme /a non-second-degree graduate/ on the evaluation of the bachelor's thesis); 6) outline of the research project (up to 5 pages); 7) opinions from two different professors (habilitated doctors), including: <ol style="list-style-type: none"> a. an opinion on the candidate's master's thesis (in the case of recipients of the "Pearls of Science" programme /a non-second-degree graduate/ bachelor's thesis) from an independent researcher familiar with the candidate's master's thesis (in the case of recipients of the "Pearls of Science" programme /a non-second-degree graduate/ bachelor's thesis), but who does not aspire to supervise the candidate; b. opinion of the scientific supervisor - an independent scientific employee of the Faculty of Historical and Pedagogical Sciences of the University of Wrocław or an independent scientific employee of the University of Wrocław - a member of the Council of the Scientific Discipline History containing a declaration of scientific supervision of the candidate in case of his/her admission to the Doctoral School; 8) a copy of the master's thesis (in the case of recipients of the "Pearls of Science" programme, the bachelor's thesis) for inspection by members of the admissions committee during the qualifying examination; 9) a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model); 10) confirmation of payment of the recruitment fee. <p>Additional documents:</p> <ol style="list-style-type: none"> 1) certificate of the second field of study; 2) documentary evidence of the candidate's scientific activity (evidenced by appropriate certificates); 3) a certificate of language proficiency at the B2+ level for graduates of second-cycle studies or long-cycle studies (in the case of recipients of the "Pearls of Science" programme at the B2 level) issued by the Foreign Languages Centre at the University of Wrocław.
--	--	--

		<p>Foreigners additionally submit:</p> <ol style="list-style-type: none"> 1. a translation into Polish of the diploma or other document entitling the student to study at the Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Minister of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul. 2. a photocopy of a document confirming the legalisation of the stay (original to be presented for verification).
7.	Top quality achievements	Obtaining recipient status in the Ministry of Science and Higher Education's 'Pearls of Science' programme.

Scientific discipline		Psychology
RECRUITMENT RULES		
1.	Form of the recruitment procedure	Oral qualifying examination; in justified cases, the admissions committee may decide to conduct the oral examination remotely.
	oral recruitment examination	<ol style="list-style-type: none"> 1. A university graduate with a master's degree or equivalent, or a graduate of first-cycle studies or a student who has completed the third year of long-cycle studies and who has the highest quality of academic achievement (e.g. is a recipient of the "Diamond Grant" or "Pearls of Science" programme) may apply for admission. 2. Admission to the Doctoral School for the training programme in the academic discipline of psychology is determined by a ranking list, resulting from adding up the examination marks obtained by each candidate in the qualifying examination. 3. Graduates of non-psychological fields of study, may apply for admission to the Doctoral School - Doctoral College of Psychology, provided they pass the exam in psychology (core reading: <i>Psychologia. Podręcznik akademicki</i>, pod red. J. Strelau, D. Doliński tom I-II, Gdańsk: GWP, 2020) for a grade of at least 4.0. 4. Psychology graduates may apply for admission to the Doctoral School - Doctoral College of Psychology provided they have a grade point average of at least 4.0. 5. Foreigners are subject to the same recruitment conditions as Polish citizens.
2.	Content of the qualifying examination	<ul style="list-style-type: none"> • knowledge of the basic theoretical and methodological problems and the literature on the subject in the area covered by the planned doctoral thesis, • knowledge of the theoretical and methodological problems and literature in all basic branches of psychology (excluding branches of applied psychology); • list of issues: uwr.edu.pl/kolegium-doctoral-psychology/
3.	Recommended literature	<i>Psychologia. Podręcznik akademicki</i> , pod red. J. Strelau, D. Doliński tom I-II, wyd. II, Gdańsk: GWP, 2020.
4.	Assessment criteria	
	Specific assessment criteria	
	A	<p>For the average of studies (first-cycle and second-cycle studies, long-cycle studies)</p> <p><u>max. 5 points</u></p>
		Points calculated according to the rule: the number of points corresponds to the average, e.g. 4.12 points for an average of 4.12 ; In the case of a candidate who is a recipient of the "Diamond Grant" or "Pearls of Science" programme, the average of the years of study completed to date.

B	For recruitment examination	max. 10 points	
B-1	knowledge of the basic theoretical and methodological problems and the literature on the subject in the area covered by the planned doctoral thesis, knowledge of theoretical problems and literature in:	score 5.0 - 10 points score 4.5 - 8 points score 4.0 - 6 points score 3.5 - 4 points score 3.0 - 2 points	
B-2	cognitive psychology, emotion and motivation, personality, developmental and social psychology and research methodology in psychology		
	Project evaluation	max. 10 points	
C	evaluation of cognitive value, methodological correctness and feasibility	score 5.0 - 10 points score 4.5 - 8 points score 4.0 - 6 points score 3.5 - 4 points score 3.0 - 2 points	
D	Additional activity	max. 25 points	
	for scientific activity, including:	max. 7 points	
D-1	presentations at scientific conferences: authorship (1 point), or co-authorship (0.5 point for 1 presentation), no points for passive participation	max. 1 point	
	proven participation in research projects and grants	max. 1 point	
	MNiSW scholarship obtained	2 points	
	Winning a grant in the "Diamond Grant" or "Pearls of Science" programme	3 points	
	authorship/co-authorship of peer-reviewed scientific publications¹	max. 16 points	
D-2	Scientific article or book for 140 points or more in accordance with the MNiSW scoring system	Stand-alone or first-author article	16 points for 1 publication
		Co-authorship	The quotient of 16 points and the number of authors, but no less than 2 points per publication
	Scientific article or book for 70-100 points or more in accordance with the MNiSW scoring system	Stand-alone or first-author article	8 points for 1 publication
		Co-authorship	The quotient of 8 points and the number of authors, but no less than 2 points per publication
	Scientific article or book for less than 70 points in accordance with the MNiSW scoring system	Stand-alone or first-author article	4 points for 1 publication 8 points
		Co-authorship	The quotient of 4 points and the number of authors, but no less than 1 point per one publication, max. 4 points

		Chapter in a monograph or article in another journal	Stand-alone or first-author article	1 points for 1 publication, max. 4 points
			Co-authorship	0.5 point for publication, max. 4 points
	D-3	at least 2 years of professional work in line with the planned research area		1 point
	D-4	English language skills at a level higher than B2+ (documented level C1 or C2)²		1 point
		Minimum number of points required to be successful in the recruitment procedure		20
		Maximum number of points possible to obtain during the recruitment procedure		50
5.		Language of the recruitment procedure	Polish, English (for foreigners)	
6.		Required documents	<ol style="list-style-type: none"> 1. an application for admission to the Doctoral School printed from the IRK system, signed by the candidate; 2. a photocopy of the diploma of completion of second-cycle studies or long-cycle studies or equivalent, together with the original to be submitted for verification by the University (or a certificate of thesis defence in the case of this year's graduates), or a photocopy of the diploma of completion of first-cycle studies or, respectively, a certificate of completion of the third year of long-cycle studies in the case of a candidate who is a recipient of the "Diamond Grant" or "Pearls of Science" programme; if these documents are not provided by the deadline, the admissions committee will refuse to admit the candidate to the Doctoral School; diplomas obtained abroad need to be authenticated in the form of legalisation or apostille; 3. a document confirming the average of studies (from the first- and second-cycle studies or from the long-cycle studies); in the case of a candidate with the highest quality of scientific achievements (recipients of the "Diamond Grant" or "Pearls of Science" programme), the average of the first-cycle studies or the average of the three completed years of the long-cycle studies will be taken into consideration; 4. a statement by the planned supervisor – an employee of the Faculty of Historical and Pedagogical Sciences of the University of Wrocław – to undertake the supervisor's care in the event that the candidate is enrolled as a doctoral student; 5. a project of the doctoral dissertation approved by the future supervisor (model on recruitment website; file max 2 pages A4); 6. statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether 	

		<p>they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School;</p> <p>7. confirmation of payment of the recruitment fee.</p> <p>Additional documents confirming the activity of the candidate - concerning scientific activity. NOTE - compress the files (zip) before attaching the documents in IRK:</p> <p>a) certificates confirming:</p> <ul style="list-style-type: none"> • authorship/co-authorship of a speech (paper, poster) at a national/international scientific conference (necessary data: programme), • participation in research projects and grants (necessary data: project leader, research topic, scope of tasks assigned by the leader, confirmation of completion), • receipt of a grant from the Ministry of Science and Higher Education, a "Diamond Grant", "Pearls of Science", etc. <p>b) List of publications with detailed bibliographic data (in the case of publications in journals - traditional or online - it is necessary to enclose information on the number of points according to the current MNiSW scoring) Photocopies of peer-reviewed scientific papers published or accepted for publication (in this case, a certificate issued by the Editorial Board is required).</p> <p>Detailed explanations:</p> <ul style="list-style-type: none"> • conference abstracts, review notes, post-conference reports, as well as reviews and other works without a critical apparatus are not considered as publication; • a monograph is considered to be a peer-reviewed compact print of a scientific nature, with an ISBN number and bibliography, • in the case of a publication accepted for publication, a certificate from the editors of the journal, the editors of the publishing house or the editors of the multi-author monograph is required, confirming this fact. • publications in a language other than Polish or English must be accompanied by a translation of the bibliographic data and the abstract into Polish or English. <p>c) certificate of at least 2 years of professional work in line with the planned research area.</p> <p>d) a certificate documenting knowledge of English (or another language, for English-speaking students) at a level higher than B2+, e.g. at C1 level, issued by the Foreign Languages Centre at the University of Wrocław. Foreign certificates, as well as any other certificates certifying current knowledge of the language, will be recognised, provided that they are accompanied by a document from the Foreign Languages Centre UWr, certifying the authenticity of the document, specifying the degree of current knowledge of the language.</p> <p>Foreigners additionally submit:</p> <p>1. a translation into Polish of the diploma or other document entitling the student to study at the</p>
--	--	---

		<p>Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Minister of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul;</p> <p>2. a photocopy of a document confirming the legalisation of the stay (original to be presented for verification).</p>
7.	Top quality achievements	Recipients of the "Diamond Grant" or "Pearls of Science" programmes receive additional points in the recruitment procedure (see section 4 D-1).
8.	Additional information	In cases justified by the national epidemiological situation, the admissions committee may decide that the oral qualifying examination will be conducted remotely via the MS Teams platform. Candidates will be informed of the remote form of the examination if this is necessary.

Name of the Faculty		Faculty of Law, Administration and Economics
Name of the Doctoral College		Doctoral College of Legal Studies and Economics and Finance
Scientific disciplines		Legal sciences Economics and Finance
RECRUITMENT RULES		
1.	Form of the recruitment procedure qualification exam	The qualification exam is made up of two parts: 1) the test part 2) the oral part
2.	Content of the qualifying examination	<p>1. The qualification exam is taken in the following specialisations:</p> <ol style="list-style-type: none"> 1) candidates applying for admission to either the Department of Constitutional Law or the Department of International and European Law shall take a specialisation examination: Constitutional, international and European law, 2) candidates applying for admission to either the Department of Theory and Philosophy or the Department of Political Doctrine and Legal Affairs Law shall take a specialisation examination: Theory and philosophy of law and political and legal doctrines, 3) candidates applying for admission at the Institute of Administrative Sciences take a specialisation examination: Science of administration, constitutional and substantive administrative law, judicial administrative law, economic administrative law; 4) candidates applying for admission at the Chair of Financial Law take a specialisation examination: Financial law with elements of administrative law and civil law, 5) candidates applying for admission to the Department of Substantive Criminal Law, the Department of Criminal Procedure, the Department of Misdemeanour, Fiscal and Economic Criminal Law, the Department of Criminology and Security Sciences, the Department of Executive Criminal Law or the Department of Forensic Science shall take a specialisation examination: Criminological sciences (substantive and procedural criminal law, misdemeanour law, fiscal criminal law, criminology, economic criminal law, executive criminal law, forensic science), 6) candidates applying for admission at the Institute of Civil Law or the Centre for the Study of the Legal and Economic Problems of Electronic Communications take a specialisation examination: Substantive civil law, family and procedural law, commercial law and labour law, 7) candidates applying for admission at the Institute of History of State and Law take a specialisation examination: History of state and law and Roman law (history of the Polish state and law, general history of state and law, Roman law),

		<p>8) candidates applying for admission at the Institute of Economic Sciences take a specialisation examination: Economic theory, international economic relations, finance and accounting</p> <p>2. Question sets for the oral part of the qualifying examination will be announced by 31 May 2026. Questions for the test part of the qualifying examination are not given to candidates before the examination.</p>
3.	Recommended literature	-----
4.	Assessment criteria	
	Specific assessment criteria	<p>1. A candidate may be admitted to the first year of training who:</p> <ol style="list-style-type: none"> holds a master's degree or equivalent or is a recipient of the "Pearls of Science" programme; has achieved the minimum qualifying score referred to below; is not simultaneously a doctoral student at another doctoral school or another college of the same doctoral school. <p>2. The recruitment procedure is competitive and consists of the following elements:</p> <p>1) an assessment of achievements, in which the following amounts of points are awarded for individual achievements:</p> <ol style="list-style-type: none"> <u>the grade point average</u> for long-cycle studies or a combination of first- and second-cycle studies – converted into points according to the formula: $LP = [(\dot{S}oS - y)/(X - y)] \cdot 20$ (where: LP - average grade converted into points, $\dot{S}oS$ - average grade from long-cycle studies or arithmetic average of grade averages from first and second-cycle studies, y - minimum (worst) grade applicable at the candidate's university, X - maximum (best) grade applicable at the candidate's university), the number of points is calculated according to the formula presented, to two decimal places. <u>a list of scientific papers published by the candidate</u> from the discipline of legal sciences, and in the case of candidates to the Doctoral College of Legal Studies of the Doctoral School of the University of Wrocław recruited from the Institute of Economic Sciences from the discipline of economics and finance, together with: <ul style="list-style-type: none"> – a publication (e.g. a glossary, an article, an excerpt from a collective work) of between 0.5 and 1 publication sheet - 1 point, – a publication (e.g. an article, a study, an excerpt from a collective work) of more than 1 publication sheet up to 3 publication sheets - 2 points, – a monograph, commentary or other similar work of which the candidate is the sole author or co-author of a part exceeding 3 publication sheets - 3 points, In the case of co-authorship, the number of points will be divided by the number of authors. The recruitment procedure will take into account only scientific publications announced in print or

		<p>published in scientific journals and peer-reviewed materials of international conferences from the list of the Minister of Science and Higher Education and in publishing houses publishing peer-reviewed scientific monographs from the list of the Minister of Science and Higher Education will be considered. The maximum number of points a candidate may obtain in the course of the selection procedure, from works of a scientific nature, may not exceed a total of <u>6 points</u>.</p> <p>2) a qualification exam passed in Polish in the candidate's chosen specialisation in legal sciences or economic sciences, consisting of two parts:</p> <p>a) <u>a test</u> comprising 50 closed, single-choice questions with four answer choices, where candidates may be awarded 1 point for each 4 correct answers;</p> <p>b) <u>an oral part</u> consisting of an answer to three questions drawn by the candidate from a set of 100 questions, where the candidate may receive between 0 and 5 marks for each answer.</p> <p>3.1 Until 31 May 2026 the Dean may determine the number of places to be allocated to the organisational units of the Faculty designated by the Dean, guided by the need to ensure the long-term development of the individual units and the importance of the research conducted in them for the development of the Faculty. The number must not exceed 2 seats.</p> <p>3.2. A candidate who applies for admission to a unit indicated in the Dean's ordinance referred to in section 3, point 1 shall be admitted if the minimum qualification is met. Such a candidate shall not be included in the ranking referred to in section 4. If more candidates apply for admission to a doctoral school in this unit than the number of places set by the Dean's ordinance, those candidates who have obtained a higher number of points in the admission procedure shall be admitted, while the remaining candidates shall be ranked. In the event of a tie, section 4, point 2 shall apply respectively.</p> <p>4. A ranking shall be established for candidates who have applied for admission and have met the conditions set out in section 1, subject to section 3, point 2. Candidates ranked first, in a number corresponding to the established limit of places minus the number of persons admitted in accordance with section 3, point 2, are admitted to the Doctoral College of Legal Studies and Economics and Finance of the Doctoral School of the University of Wrocław.</p> <p>4.2. In the event of an equal number of points, the ranking is determined by the average of the grades obtained during the long-cycle studies or the average drawn together from the grades obtained during the first- and second-cycle studies. The provision of section 2, point 1, letter a, shall apply respectively to the conversion of an average other than the average in force at the University of Wrocław.</p> <p>5.1. Candidates applying for admission to the Doctoral College of Legal Studies and Economics and Finance of the Doctoral School of the University of Wrocław within the "Implementation Doctorate" programme</p>
--	--	--

		<p>launched pursuant to Article 376(1) and (2)(1) of the Act of 20 July 2018 - Law on Higher Education and Science may be admitted if they meet the requirements set out by the applicable legislation and receive a positive opinion of the Faculty Recruitment Committee. This opinion is given on the basis of the documents submitted by the candidate and an interview with him/her.</p> <p>5.2. The interview takes place within the candidate's chosen specialisation as referred to in the Scope of the qualification exam/interview, based on three questions drawn by the candidate from the 100 questions provided for the specialty. The provisions of section 2, point 2, letter b as well as section 2 concerning the Scope of the subject matter of the qualifying examination/interview shall apply respectively.</p> <p>5.3. Candidates admitted under section 5, points 1 and 2 shall not reduce their admission limits.</p> <p>5.4. Candidates shall receive a doctoral scholarship exclusively from the funds obtained under the "Implementation Doctorate" programme launched pursuant to Article 376(1) and (2)(1) of the Act of 20 July 2018 - Law on Higher Education and Science.</p> <p>5.5. The rules set out in section 5, points 1-3 shall apply respectively to candidates pursuing the Internationalisation of Doctoral Schools programme and those pursuing doctoral programmes under external grant programmes provided that separate funding (tuition fees and scholarship) is obtained.</p>
	Minimum number of points required to be successful in the recruitment procedure	the qualifying minimum is 28 points , including passing the qualification exam, i.e. obtaining at least <u>6</u> points in the test part of this exam and at least <u>6 points</u> in the oral part of this exam.
	Maximum number of points possible to obtain during the recruitment procedure	53 points
5.	Language of the recruitment procedure	Polish. In the case referred to in point 4 (detailed assessment criteria) of section 5 (point 5), the interview may take place in English.
6.	Required documents	<p>1. <u>A candidate applying for admission to the Doctoral School of the University of Wrocław - Doctoral College of Legal Studies and Economics and Finance - is required to submit the following documents</u>, together with a sworn translation into Polish of any document submitted which was drawn up in a language other than Polish:</p> <ol style="list-style-type: none"> 1) <u>an application</u> (according to the required model), which should include: <ol style="list-style-type: none"> a) <u>an indication of the teaching unit</u> (Chair, Department, other organisational unit of the Faculty authorised to admit doctoral students) in which the candidate wishes to follow doctoral training, b) <u>a proposal regarding the supervisor</u>; 2) <u>an application for admission to the Doctoral School printed out from the IRK system</u> and signed by the candidate; 3) <u>a photocopy of a diploma of the completion of second-cycle studies or long-cycle studies or</u>

		<p>equivalent, together with the original to be presented to the candidate for inspection to confirm conformity by the university, or, in the case of persons applying for admission from the "Pearls of Science" programme, a photocopy of the diploma of completion of first-cycle studies (together with the original to be presented to the candidate for inspection to confirm conformity by the university) or a certificate from their dean's office confirming completion of the third year of long-cycle studies, together with a certificate confirming their status as a recipient of the "Pearls of Science" programme. Diplomas obtained abroad require authentication in the form of either legalisation or apostille;</p> <p>4) <u>an opinion on suitability for scientific work</u> drawn up by a person holding a post-doctoral degree in law or, in the case of candidates for the Institute of Economic Sciences, a post-doctoral degree in law or a post-doctoral degree in economics;</p> <p>5) <u>a certificate of average marks</u> from master's degree programme established in accordance with the university's study regulations and issued by the university in which the candidate completed his/her studies, including information on the grading scale according to which the average was calculated (for second-cycle graduates, also a certificate containing the average from the first-cycle studies completed). In the case of those who have obtained the "Pearls of science", the relevant certificate refers to the first-cycle studies or the average obtained after the third year of long-cycle studies;</p> <p>6) <u>a list of scientific papers published by the candidate</u> from the discipline of legal sciences, and in the case of candidates to the Doctoral College of Legal Studies and Economics and Finance of the Doctoral School of the University of Wrocław recruited from the Institute of Economic Sciences from the discipline of economics and finance, together with:</p> <p>a) <u>photocopies</u> of glosses, articles and studies and photocopies of the title pages of book studies either</p> <p>b) <u>indicating, in each case, the size of the published work</u>, expressed in the number of publishing sheets or the number of typographical characters (words) including spaces (1 publishing sheet corresponds to 40,000 characters including spaces);</p> <p>7) <u>consent of the person proposed as supervisor</u> to undertake this function (according to the required model);</p> <p>8) <u>a statement on the fulfilment of duties</u> in the field of research, professional practice and organisational work (according to the required model);</p> <p>9) <u>candidate's declaration</u> including information: whether or not they hold a doctoral degree, whether they are doctoral students at another</p>
--	--	---

		<p>college of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model);</p> <p>10) <u>confirmation of payment of the recruitment fee.</u></p> <p>2. Failure to submit any of the documents indicated above in section 1 points 1-4 and 7- 10 shall justify the candidate's non-admission to the qualification procedure.</p> <p>3. Failure to submit one of the documents indicated in section 1, points 5 and 6 above will result in the candidate not gaining any points from the assessment of the relevant achievements.</p>
7.	Additional information	In cases justified by the national epidemiological situation, the admissions committee may decide that the oral qualifying examination will be conducted remotely via the MS Teams platform. Candidates will be informed of the remote form of the examination if this is necessary.

Name of the Faculty		Faculty of Biological Sciences
Name of the Doctoral College		Doctoral College of Biological Sciences
Scientific discipline		Biological sciences
RECRUITMENT RULES		
1.	Form of the recruitment procedure	Qualification interview
2.	Content of the recruitment examination	<p>Presentation of the research project by the candidate and discussion of the project.</p> <p>During the interview, the candidate presents only in oral form, i.e. without the use of supporting materials (such as multimedia presentation, printouts of diagrams, poster) the research project agreed with the proposed supervisor (10 min).</p> <p>The presentation is followed by an interview with the committee (10-20 min) about the research project and how it is planned to be carried out.</p>
3.	Recommended literature	No
4.	Assessment criteria	<p>The candidate receives points for:</p> <ol style="list-style-type: none"> 1) the qualification interview (maximum 50 points); 2) previous scientific and popular science activities and grade point average (maximum 50 points). <p>During the interview, the following things are taken into consideration:</p> <ul style="list-style-type: none"> – preparation of the research project description; – manner of presenting the research project (appeal, clarity, and conciseness of the presentation); – the candidate's knowledge of the research project topic; – placement of the research project within the current state of knowledge; – knowledge of methods and techniques related to the project's implementation; – ability to argue for and justify the rationale for undertaking the project; – ability to formulate hypotheses/research questions; – the candidate's responses to questions concerning the research project and its implementation. <p>The points for the interview are the average of the points awarded by the members/examiners of the admissions committee.</p> <p>The final grade from the recruitment procedure is calculated according to the formula:</p> $P_k = P_r + P_d$ <p>P_k - final score P_r - points for the interview representing the average of the points awarded by the members of the commission/examiners (max. 50) P_d - points for previous activity (max. 50)</p> <p>The P_k figure is rounded to the nearest 0.1 points after all arithmetic operations have been performed.</p> <p>Admission of candidates is determined by their position on the ranking list drawn up on the basis of the number of</p>

		points obtained in the interview (min. 25 points, max. 50 points) and points for previous scientific and popular science activities and grade point average (max. 50 points).
	Specific assessment criteria	<p>The results of the recruitment procedure are assessed on a points scale:</p> <ol style="list-style-type: none"> 1. Qualification interview 0-50 points. (min. 25 points) 2. Previous activity, including grade point average, scholarly and popularisation activity - 0-50 points: <ol style="list-style-type: none"> 1) average of studies min. 3.7 (first- and second-cycle studies or long-cycle studies): 0-5 points A candidate earns 0.5 point for each full 0.1 parts of the total study average above 4.0. E.g. 0.5 point for an average of 4.1-4,19, 1 point for an average of 4,2-4,29; 2) (co-)authorship of a publication (maximum 24 points). <ol style="list-style-type: none"> a. (co-)authorship of a publication in a journal from the current list of the Ministry of Science and Higher Education: <ul style="list-style-type: none"> • publication for 20 points - 4 points; • publication for 40 points - 8 points; • publication for 70 points - 12 points; • publication for 100 points - 16 points; • publication for 140 points or 200 points - 20 points; b. (co-)authorship of a book/monograph¹⁾ in English: 16 points; c. (co-)authorship of a book/monograph¹⁾ in Polish: 8 points; d. (co-)authorship of a chapter in a book/monograph¹⁾ in English (excluding post-conference material): 8 points; e. (co-)authorship of a chapter in a book/monograph¹⁾ in Polish (excluding post-conference material): 4 points; f. (co-)authorship of papers published in other peer-reviewed journals: 2 points; g. (co-)authorship of popular science publications in Polish: 1 point; 3) active participation (attendance) in conferences/symposia/congresses, workshops and other scientific events: national (paper, poster): 2 points and international (paper, poster): 4 points (maximum 4 points); 4) authorship/co-authorship of a paper/poster presented at a conference/symposium/scientific congress or other scientific event: national: 1 point and international: 2 points (maximum 2 points); 5) completion of an international research placement (a single stay of at least 5 working days): 2 points (maximum 4 points); 6) completion of a domestic research placement of at least 1 month, including within volunteering, a placement not included in the study programme, or other forms: 1 point (maximum 2 points).

		<p>7) participation in mentoring and tutoring programmes: 1 point (maximum 1 point);</p> <p>8) active participation in a scientific student association²⁾ 1 point (maximum 2 points);</p> <p>9) participation in popular science initiatives such as: Mój Pierwszy Uniwersytet, Noc Biologów, Festiwal Nauki: 1 point (maximum 3 points);</p> <p>10) participation in a research project, including leading a scientific project (3 points) or active participation in a scientific project 1 point ³⁾ (maximum 3 points);</p> <p>¹⁾ definition of monograph according to the Ministry of Science and Higher Education;</p> <p>²⁾ active participation in the scientific association must be certified by the tutor. The document issued must include a justification detailing the candidate's activities;</p> <p>³⁾ active participation in the research project must be certified by the project manager. The document issued must include a justification detailing the candidate's activities.</p>
	Minimum number of points required to be successful in the recruitment procedure	<p>51 points (of which at least 25 points from the interview)</p> <p>Candidates who obtain a minimum of 51 points (including at least 25 points from the interview) and rank highest on the list of candidates within the number of places allocated to the college will be granted 'accepted' status. Candidates who obtain a minimum of 51 points (of which at least 25 points from the interview) and are ranked outside the limit of places set for the college will be given 'reserve' status. If a place/places becomes/become available on the list of doctoral students admitted to the college by 30 September of a given year, the reserve candidate/candidates will receive 'accepted' status (taking into account their position on the ranking list). If there are no vacancies on the list of accepted doctoral students, the reserve candidate becomes a rejected candidate and receives a decision refusing admission to the Doctoral School.</p>
	Maximum number of points possible to obtain during the recruitment procedure	100 points
5.	Language of the recruitment procedure	For Polish and foreign candidates - Polish language.
6.	Required documents	<p>1. an application for admission printed from the IRK system, signed by the candidate, together with consent to the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School;</p> <p>2. a photocopy of the diploma of completion of second-cycle studies or long-cycle studies or equivalent, together with the original to be submitted for inspection to confirm conformity by the university, or, in the case of recipients of the "Diamond Grant" or "Pearls of Science" programmes - a photocopy of the diploma of completion of first-cycle studies (together with the original to be inspected in order to confirm conformity by the university) or a certificate of completion of the third year of long-cycle studies together with a certificate confirming the recipient</p>

		<p>status of the "Diamond Grant" or "Pearls of Science" programmes. Diplomas obtained abroad require authentication in the form of either legalisation or apostille;</p> <ol style="list-style-type: none"> 3. a certificate of the average of the studies: <ol style="list-style-type: none"> a. in the case of completion of the first-cycle studies and second-cycle studies - the average of grades is calculated as the average of two arithmetic averages of all subjects taken during first- and second-cycle studies (the grade from diploma examinations is not taken into account); b. in the case of completion of the first-cycle studies and second-cycle studies - the average of grades is calculated as the average of two arithmetic averages of all subjects taken during first- and second-cycle studies (the grade from diploma examinations is not taken into account); c. in the case of recipients of the "Diamond Grant" or "Pearls of Science" programmes - the average of grades is calculated as the arithmetic mean of the grades of all subjects completed in the first-cycle studies (the grade from the diploma exam is not taken into account) or three years of long-cycle studies; 4. dissertation project; 5. a statement from the head of the unit in which the dissertation will be carried out that he/she agrees to the candidate carrying out the dissertation and ensuring an appropriate teaching load if the candidate is admitted to the Doctoral School; 6. a statement by the planned supervisor that they will undertake to supervise the dissertation and provide a research position for the duration of the dissertation if the candidate is accepted into the Doctoral School; 7. the planned supervisor's opinion of the candidate; 8. a document confirming knowledge of English language proficiency at B2 level: <ol style="list-style-type: none"> a. supplement to the diploma of completed studies or b. certificate or other document confirming knowledge of English at B2 level in accordance with the list made available before the start of recruitment on the website of the entity conducting the recruitment c. certificate(s) issued by the home university; <p>Candidates may be exempted from having to present one of the above documents:</p> <ol style="list-style-type: none"> a. for whom English was the language of instruction during their studies (the language of instruction must be stated on the diploma or the diploma supplement, or on the transcript of grades); b. for whom English is their mother tongue; 9. document confirming knowledge of Polish at a minimum level of B2 for candidates who are not Polish citizens: <ol style="list-style-type: none"> a. certificate of knowledge of Polish at a minimum level of B2 issued by the State Commission for the Certification of Proficiency in Polish as a Foreign Language for adults; b. certificate issued by a Polish language school c. a diploma of completion of first- or second-cycle studies in a field taught in Polish
--	--	--

		<p>d. other types of documents certifying knowledge of Polish as a foreign language at a level of proficiency not lower than B2, recognised by the Director of the Polish Language School as equivalent to the above-mentioned documents.</p> <p>10. A list of documents providing evidence of the achievements listed under points 2 to 9 of the Detailed Assessment Criteria of this recruitment procedure. The list must be accompanied by documents confirming the achievements. In the case of publications, copies of the first pages of scientific papers are required, stating whether the publication is in the current list of the Ministry of Science and Higher Education and, if it is in this list, the number of points for the publication;</p> <p>11. Candidate's declaration including information: whether or not he/she holds a doctoral degree, whether he/she is a doctoral student at another College of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model);</p> <p>12. Confirmation of payment of the recruitment fee.</p> <p>All recruitment documents must be in Polish. In the case of diplomas obtained abroad, the translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Minister of Justice), a sworn translator from the EU (if there is an institution of sworn translators in that country) or a Polish consul.</p>
7.	Top quality achievements	<p>A candidate for the Doctoral College of Biological Sciences of the Doctoral School (who is a recipient of the "Diamond Grant" or "Pearls of Science" programmes) must meet at least 3 of the following criteria for achievement of the highest quality:</p> <ol style="list-style-type: none"> 1. have lead authorship/co-authorship of a scientific monograph or a chapter in a scientific monograph published by a publishing house included in the list of publishing houses drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 - Law on Higher Education and Science; 2. have lead authorship/co-authorship of a scientific article published in a scientific journal or in the peer-reviewed materials of international conferences included in the list of these journals and materials drawn up in accordance with the regulations issued pursuant to Article 267(2)(2) of the Act of 20 July 2018 - Law on Higher Education and Science; 3. lead a current or past research project of a high level of innovation, carried out by the university in which the student is or was studying, including participation in a research project financed as part of a national or international competition; 4. have lead authorship of a scientific research paper with a high level of innovation and delivered it at a prestigious national or international scientific conference organised by an entity referred to in Article 7(1) of the Act of 20 July 2018 - Law on Higher Education and Science, a foreign university or a foreign scientific institution; 5. winning an individual prize or making a significant contribution to an achievement for which a team prize has been won in a prestigious international

		<p>competition involving students from at least five countries, excluding competitions organised as part of international scientific conferences;</p> <p>6. have a document/experience of practical application of the results of research or development work, including a patent application, an awarded patent or implementation of the results of scientific activity in another form.</p>
8.	Additional information	<p>1. University graduates may apply for admission if they:</p> <ul style="list-style-type: none"> a. hold a master's degree, master's degree in engineering or equivalent; b. are recipients of the "Diamond Grant" or "Pearls of Science" programmes.

Name of the Faculty		Faculty of Biotechnology
Name of the Doctoral College		Doctoral College of Biomedical Sciences
Scientific disciplines		Medical sciences Biomedical engineering Biotechnology
RECRUITMENT RULES		
1.	Form of the recruitment procedure	Qualification interview
2.	Content of the recruitment examination	Oral presentation of the research project by the candidate and discussion of the project. During the interview, the candidate presents (without multimedia presentation) a research project agreed with the proposed supervisor (max 10 min). The presentation is followed by an interview with the committee (10-20 min) about the research project and the planned way of carrying it out (state of the art of the project topic, methodology, work plan, research theses).
3.	Recommended literature	
4.	Assessment criteria	The results of the recruitment procedure are assessed on a point scale; maximum 50 points. A candidate's admission grade (P) is calculated according to the formula: $P = Pr + Pn$ Pr - points for the interview representing the average of the points awarded by the members of the admissions committee (maximum 45); Pn - points for scientific activity (maximum 5). In the event that two candidates obtain the same P grade, the candidate with the higher Pr score will be qualified. If one of the candidates with the same score has partial grant funding, he/she is preferentially shortlisted.
	Specific assessment criteria	At the end of the interview, the members of the admissions committee will evaluate the candidate in secret based on the following criteria: 1. the qualification interview maximum 45 points); <ul style="list-style-type: none"> • the presentation of the research project (clarity, conciseness); (0-15 points) • interview with the committee (candidate's knowledge of the current state of knowledge and the topic of the research project; knowledge of the methods and techniques involved in carrying out the project; ability to argue and answer questions demonstrating aptitude for scientific work) (0-30 points) 2. previous scientific activity (total maximum of 5 points) : <ul style="list-style-type: none"> • co-authorship of a publication in a journal for at least 100 points from the current MNiSW list: (0-5 points); The candidate earns 5 points per publication if he/she is the lead author of the paper (first or correspondence author), or 2.5 points for co-authorship of each publication_(non-corresponding author) up to a maximum limit of 5 points.
	Minimum number of points necessary to achieve a positive result in	30 points (of which at least 25 points from the interview)

	the recruitment procedure	
	Maximum number of points possible to obtain during the recruitment procedure	50
5.	Language of the recruitment procedure	Polish or English
6.	Required documents	<ol style="list-style-type: none"> 1. an application for admission to the Doctoral School, printed out from the IRK system, signed by the candidate, together with consent to the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School; 2. a photocopy of the diploma of completion of second-cycle studies or long-cycle studies or equivalent, with the original to be submitted for inspection to confirm conformity by the university, or a certificate of completion of second-cycle studies (in the case of this year's graduates - the diploma to be submitted at a later date) or, in exceptional cases justified by the highest quality of academic achievements, a photocopy of the diploma of completion of first-cycle studies or a certificate from their dean's office of completion of the third year of long-cycle studies; 3. a candidate who holds a foreign language diploma shall submit a photocopy of the diploma (with the original for inspection) and its translation into Polish. The translation must be certified by a sworn translator. A diploma obtained abroad requires authentication in the form of either legalisation or apostille; 4. a description of the research project including preliminary concepts for the dissertation; 5. a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School 6. the candidate may include his/her publications.
7.	Top quality achievements	<p>A candidate with a scientific record of the highest quality should meet at least one of the following conditions:</p> <ol style="list-style-type: none"> 1. have experience of research work significantly beyond first-cycle studies; 2. obtain funding under grants aimed at young researchers. <p>Possession of scientific achievements of the highest quality of the candidate should be confirmed by a resolution of the Council of Scientific Disciplines Biotechnology, Medical Sciences and Biomedical Engineering (the relevant resolution should be attached to the recruitment file)</p>
8.	Additional information Candidates with a fully funded PhD scholarship from a research project	In addition to the admission limit specified in the UWr Rector's Ordinance, candidates for whom funding for a doctoral scholarship is provided in full from a research project are admitted. For these candidates, the recruitment conditions set out in this Appendix shall apply. A condition of admission for a fully funded person is:

		<ol style="list-style-type: none">1. submission by the academic supervisor of documents evidencing the award of full funding towards tuition costs;2. achieve at least a minimum score in the recruitment procedure;3. meeting the requirements on which the funding depends.

Name of the Faculty		Faculty of Earth Sciences and Environmental Management
Name of the Doctoral College		Doctoral College of Geography and Geology
Scientific discipline		Earth and Environmental Sciences, Socio-economic Geography, and Spatial Management
RECRUITMENT RULES		
1.	Form of the recruitment procedure	Qualification exam (written)
2.	Scope of the qualification exam	General knowledge about the natural environment and its transformations under human activity, in particular: <ul style="list-style-type: none"> • natural and anthropogenic factors of climate change, • environmental consequences of mineral resource exploitation, • influence of the natural environment on human activity – in the past and at present, • natural hazards and ways to minimize their effects.
3.	Recommended literature	Up-to-date knowledge on the topics mentioned in Point 2 from reliable scientific sources such as Scientific American – The Environment, earthsky.org
4.	Evaluation criteria	
	Detailed evaluation criteria	<p>1. Previous Achievements in Scientific Work and Science Outreach</p> <ul style="list-style-type: none"> • Independent scientific article or co-authorship in a collective work as first author – the maximum of 2 points • Co-authorship of a scientific article – the maximum of 1 point • Abstract or active, confirmed participation in a scientific conference – the maximum of 0.5 points • Participation in research projects led by a scientific staff member – the maximum of 0.5 points • Confirmed involvement in activities promoting science – the maximum of 1 point <p>Total points for scientific activity: maximum 5 points</p> <p>2. English Reading Comprehension and Summary Skills</p> <p>The candidate's task is to write a summary in English of a short popular science text provided in English, related to one of the thematic areas indicated in point 2. The summary should be approximately 250 words ($\pm 10\%$).</p> <p>Evaluation criteria:</p> <ul style="list-style-type: none"> • General language correctness (grammar, vocabulary, coherence) • Logical and accurate presentation of the key points from the source text <p>Scoring: 0–10 points Each committee member evaluates the summary on a scale from 0 to 10 points, maintaining the anonymity of the works being assessed. The final score is the average of the individual scores.</p>

		<p>A passing grade is awarded for achieving at least 5 points.</p> <p>1. General Research Plan</p> <p>Presentation of the concept and main theses of the proposed doctoral dissertation (up to 10,000 characters, to be submitted in written form to the committee on the day of the recruitment). The plan must be approved by the academic supervisor.</p> <p>Evaluation criteria:</p> <ul style="list-style-type: none"> • Justification for undertaking the research • Clear presentation of the preliminary research concept (research hypotheses, methodological approach) • Identification of potential sources of funding <p>Scoring: 0–10 points Each committee member evaluates the research plan on a scale from 0 to 10 points; the final score is the average of the individual scores. A passing grade is awarded for achieving at least 5 points.</p> <p>After the exam, the committee prepares a ranking list. The candidate's position on the list reflects the total number of points obtained in the recruitment process, with the requirement of obtaining at least 5 points for the research plan and 5 points for the summary</p>
	Minimum number of points required to be successful in the recruitment procedure	10
	Maximum number of points possible to obtain during the recruitment procedure	25
5.	Language of the recruitment procedure	Polish, English
6.	Required documents	<p>Application Requirements for Admission to the Doctoral School</p> <p>Candidates applying for admission to the Doctoral School are required to submit the following documents. For any document originally prepared in a language other than Polish, a sworn translation into Polish must also be provided:</p> <ol style="list-style-type: none"> 1. Application for Admission – Printed from the IRK system, signed by the candidate, including consent for the processing of personal data for the purposes of the admission procedure and potential study at the Doctoral School of the University of Wrocław. 2. Diploma(s) – A photocopy of the second-cycle (Master's) degree or long-cycle Master's degree diploma, or an equivalent diploma, accompanied by the original for verification. <ul style="list-style-type: none"> ○ For recipients of the "Diamond Grant" or "Pearls of Science" programs: a photocopy of the first-cycle (Bachelor's) diploma, with the original for verification, or a certificate from the Dean's Office confirming completion of the third year of long-cycle

		<p>Master’s studies, along with confirmation of recipient status in the respective program.</p> <p>Note: Diplomas obtained abroad must be legalized or bear an apostille.</p> <p>3. Supervisor’s Statement – Confirmation from the proposed supervisor agreeing to provide doctoral supervision if the candidate is admitted.</p> <p>4. Candidate’s Declaration - Information regarding whether the candidate holds a doctoral degree, or is a doctoral student at another College of the Doctoral School of the University of Wrocław, or another Doctoral School</p> <p>5. Curriculum Vitae (CV).</p> <p>6. Academic Transcript – Certificate of the average grade from first- and second-cycle studies or long-cycle Master’s studies, issued in accordance with the regulations of the awarding institution.</p> <ul style="list-style-type: none"> ○ For recipients of the “Diamond Grant” or “Pearls of Science” programs: a certificate of the average grade from first-cycle studies or the completed three years of long-cycle Master’s studies. <p>7. Reference on Research Aptitude – Prepared by a holder of the habilitated doctor degree (doktor habilitowany) in Earth and Environmental Sciences or Socio-Economic Geography and Spatial Management.</p> <p>8. Departmental Consent – Statement from the head of the organizational unit (Department) where the doctoral dissertation will be conducted.</p> <p>9. Evidence of Scholarly Achievements – Copies of the first pages of publications and other documentation demonstrating scientific achievements and contributions to science popularization.</p> <p>10. Proof of Payment – Confirmation of the recruitment fee payment.</p> <p>11. Photograph – One photo meeting standard ID dimensions (35 mm × 45 mm).</p> <p>Important Notes:</p> <ul style="list-style-type: none"> • Failure to submit any of the documents listed under points 1–8 or 10–11 will result in exclusion from the admission process. • Failure to submit documents under point 9 will result in no points being awarded for scholarly achievements. <p>Additional Requirements for Foreign Applicants:</p> <p>1. Sworn Translation of Diploma – A Polish translation of the diploma or other qualifying document, certified by a Polish sworn translator (listed by the Ministry of Justice), an EU sworn translator (if available), or a Polish consul.</p> <p>2. Proof of Legal Stay – Photocopy of the document confirming legal residence (original for verification). Candidates may be allowed to take the qualifying exam prior to submitting this document, provided it is submitted after a successful exam outcome.</p>
7.	Highest-level research achievement	Not specified in the evaluation criteria

RECRUITMENT RULES		
1.	Form of the recruitment procedure	Qualification interview (on-site or remote)
2.	Content of the recruitment examination	<p>The interview consists of two parts, each assessed independently. Each part is graded on a scale of 0-30 points. In justified cases, it is possible to conduct the interview remotely via a video conferencing platform selected by the admissions committee. In such cases, the candidate's written consent to the electronic recording of the interview is required.</p> <p>The first part of the interview concerns the candidate's master's/bachelor's thesis, other academic achievements and academic and research plans. In this part, the candidate is required to give a short presentation containing information about their thesis and any other academic achievements obtained during or after their studies (e.g. internships, publications, participation in research, participation in grants, schools, conferences, scholarships and awards) and the candidate's research plans.</p> <p>The second part of the interview concerns general knowledge of physics/astronomy (depending on the chosen scientific discipline) and knowledge of relevant issues and discoveries directly related to the candidate's possible previous research work and planned research. Knowledge of physics/astronomy will be assessed on the basis of the candidate's answers to the questions asked by the admissions committee.</p>
3.	Recommended literature	<p>Specialisation: theoretical physics</p> <ol style="list-style-type: none"> 1. Mechanika kwantowa: L.I. Schiff, „Quantum Mechanics” 2. 4.	Assessment criteria	
	Specific assessment criteria	<p>The first part of the interview will assess, among other things, the level and content of the master's/bachelor's thesis, the nature of any other academic achievements obtained during the course of study, and the consistency of the research plans presented.</p> <p>The second part of the interview will assess the candidate's general knowledge of physics/astronomy (depending on the chosen scientific discipline) and their knowledge of relevant issues and discoveries directly related to their previous research work and planned research.</p>
	Minimum number of points required to be successful in the recruitment procedure	A total of not less than 30 ranking points, with the number of points obtained in each of the two parts of the interview, not less than 10 ;
	Maximum number of points possible to obtain during the recruitment procedure	60
5.	Language of the recruitment procedure	Polish or English
6.	Required documents	<ol style="list-style-type: none"> 1. an application for admission to the Doctoral School printed from the IRK system, signed by the candidate together with the consent for the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School of the University of Wrocław; 2. one photograph of the candidate, conforming to the requirements for the issue of identity documents

		<p>(passport, identity card), with an image size of 35 mm x 45 mm;</p> <ol style="list-style-type: none"> 3. a photocopy of the diploma of completion of the second-cycle studies or of the diploma of completion of the long-cycle studies or equivalent studies, with the original to be submitted for verification by the university; a certificate of completion of the studies referred to above issued by a national university may be submitted; 4. for those with the highest quality of scientific achievements, admission to the Doctoral College of Physics and Astronomy may be applied for by a person referred to in Article 186(2) of the Act of 20 July 2018 - Law on Higher Education and Science, who does not hold a master's degree, is a graduate of the first-cycle studies or a student who has completed the third year of the long-cycle studies and has student status. In order to confirm that the condition referred to in Article 186(2) of the aforementioned Act is fulfilled, the candidate is additionally required to submit: <ol style="list-style-type: none"> 1) two opinions confirming the high quality of the scientific research conducted and confirming the high degree of advancement of this work, issued by supervisors holding at least a post-doctoral degree or who are staff members of a foreign university or scientific institution and who have significant achievements in scientific issues related to the doctoral student's planned research work, 2) certificate of status as a recipient of the "Diamond Grant" or "Pearls of Science" programme; <p>In addition, in such a case, the candidate shall also submit a photocopy of his/her first-cycle diploma (with the original to be submitted for verification by the university) or a certificate from his/her dean's office to the effect that he/she has completed the third year of his/her long-cycle studies and a diploma supplement containing a list of the subjects completed with grades.</p> <p>NOTE: Diplomas obtained abroad require authentication in the form of either legalisation or apostille;</p> 5. a diploma supplement listing the subjects completed along with their grades; 6. an electronic version of the bachelor's/master's thesis delivered on any storage medium; 7. a written statement from the planned supervisor(s) agreeing to supervise the candidate if they are accepted into the College, and a written opinion from the planned supervisor about the candidate, based on, among other things, an interview with the candidate; if the planned supervisor's employment period is shorter than the expected duration of education at the doctoral school, the planned supervisor shall indicate a person who will be able to take on the role of supervisor; 8. the candidate may attach additional opinions (or letters of recommendation) concerning him or her; 9. a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model); 10. confirmation of payment of the recruitment fee. <p>Foreigners additionally submit:</p>
--	--	---

		<ol style="list-style-type: none"> 1. curriculum vitae; 2. a document proving good knowledge of English at a level of at least B2: <ol style="list-style-type: none"> a) a certificate recognised by the Ministry of Science and Higher Education confirming knowledge of English at a level of at least B2, or b) a certificate of proficiency in English at a level of at least B2 issued by the Centre for Intensive English Language Teaching or Foreign Languages Centre of the University of Wrocław. <p>Candidates may be exempted from having to provide proof of English language skills:</p> <ul style="list-style-type: none"> – for whom English was the language of instruction during their studies (the language of instruction must be stated on the diploma or the diploma supplement); – for whom English is their mother tongue; – who have passed an English language examination of at least B2 level during their studies and this is shown in the diploma supplement. 3. a translation into Polish of the diploma or other document entitling the student to study at the Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Minister of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul. 4. a photocopy of a document confirming the legalisation of the stay (original to be presented for verification). <p>It is possible for a candidate to be admitted to the entrance examination without a photocopy of the document confirming the legalisation of residence, and to provide it only in the event of a positive result at the interview.</p>
7.	Top quality achievements	<p>The candidate's achievement of the highest quality shall be evidenced by the documents referred to above in points. 6.4.1 or 6.4.2</p>

Name of the Faculty		Faculty of Chemistry
Name of the Doctoral College		Doctoral College of Chemistry
Scientific discipline		Chemical sciences
RECRUITMENT RULES		
1.	Form of the recruitment procedure	Qualification interview
2.	Content of the recruitment examination	<p>During the interview, the candidate presents (multimedia presentation, 10 min):</p> <ol style="list-style-type: none"> 1. previous research experience, publication record and other scientific achievements; 2. research plan agreed with the proposed supervisor. <p>The presentation is followed by an interview with the committee (10-20 min) covering, among other things, the project's assumptions and research hypotheses, the state of research in the chosen topic and the research methods used in it.</p>
3.	Recommended literature	<ul style="list-style-type: none"> • Chemia nieorganiczna - podstawy, F. A. Cotton, G. Wilkinson, PWN, Warszawa 2002; • Advanced Inorganic Chemistry, F. A. Cotton, G. Wilkinson, C. A. Murillo, M. Bochmann 6-th Ed. Wiley, New York 1999; • Organic Chemistry Structure and Function, K. P. C. Vollhardt, N. E. Schore, W.H. Freeman; 2018; • Chemia fizyczna – P. Atkins, J. de Paula; PWN, Warszawa 2015; • Atkins' Physical Chemistry, P. Atkins, J. de Paula, Oxford University Press, Oxford, New York, 2010; • Idee chemii kwantowej, L. Piela, Wydanie II, PWN 2011; • Ideas of Quantum Chemistry, L. Piela, Elsevier Wydanie II 2013, lub późniejsze.
4.	Assessment criteria	<p>On the assessment of the candidate</p> $P = P_o + P_k$ <p>consists of points for the grade point average (P_o = Grade point average for first and second cycle or unified master's degree or equivalent $\times 10$, max. 50 points) and the points awarded by the committee (P_k) on the basis of the interview according to the rules given below. The P score is rounded to the nearest 0.1 points after all arithmetic operations have been performed. If two candidates receive the same P grade, which would result in more candidates qualifying than the number of available places, the candidate with the higher P_k grade will be selected.</p>
	Specific assessment criteria	<p>At the end of the interview and its conclusion, the members of the admissions committee will make an open assessment of the candidate based on the following criteria:</p> <ol style="list-style-type: none"> 1. quality of the research project, 2. an aptitude for scientific work, 3. knowledge of the subject matter and research methods, 4. previous scientific achievements, including: publications, conferences, internships, patent applications and patents granted. <p>Based on the above criteria, each member of the committee, who is not excluded from the assessment due</p>

		<p>to a conflict of interest, awards points to the candidate using the following scale:</p> <ul style="list-style-type: none"> • 5 points - outstanding candidate, • 4 points - very good candidate, • 3 points - good, • 2 points - average, • 1 point - weak, • 0 point - candidate should not be admitted or no research project. <p>The grade drawn up by the committee member is the arithmetic average of the marks awarded for criteria 1-4. The committee's P_k score is calculated according to the formula</p> $P_k = 10 \times P_k' / k'$ <p>where P_k' is the sum of the scores obtained from all eligible committee members and k' is the number of committee members entitled to assess the candidate, after discarding the two extreme scores.</p>
	Minimum number of points required to be successful in the recruitment procedure	60
	Maximum number of points possible to obtain during the recruitment procedure	100 points: max. 50 points for the average (for a 5.0 average) and 50 points for the qualification interview.
5.	Language of the recruitment procedure	Polish or English language
6.	Required documents	<ol style="list-style-type: none"> 1. application for admission to the Doctoral School, printed from the IRK system, signed by the candidate together with consent to the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School. 2. a photocopy of a second-cycle studies or long-cycle studies or equivalent, together with the original for inspection to confirm compliance by the university (the candidate may submit a certificate of completion of the above-mentioned studies together with a statement that the diploma will be delivered by 25 September). In the case of recipients of the "Pearls of Science" programme, the candidate submits a photocopy of their first-cycle studies diploma (along with the original for inspection to confirm compliance by the university), or a certificate of completion of the third year of a long-cycle studies programme, along with a certificate confirming the status of recipient of the "Pearls of Science" programme. Diplomas obtained abroad require authentication in the form of legalisation or an apostille; 3. Certificate of the arithmetic mean of grades from all years of study or a transcript of records certified by the university for first- and second-cycle studies or long-cycle studies 4. confirmation of English language proficiency at least at B2 level in one of the following forms: <ul style="list-style-type: none"> • supplement to the diploma of completed studies, • appropriate certificate (list of certificates available on the website of the Foreign Languages Centre), • examination at the Foreign Languages Centre;

		<ol style="list-style-type: none"> 5. written consent of an independent researcher from the Faculty of Chemistry to act as a supervisor and create the conditions necessary for the completion of the doctoral thesis; 6. a research project agreed with the planned supervisor, which will be carried out by the candidate as part of their doctoral work; 7. a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model) 8. list of scientific publications (journals from the Philadelphia List), proof of participation in scientific conferences, patent applications and patents granted - optional; 9. a document confirming completion of an internship - optional <p>Foreigners additionally submit:</p> <ol style="list-style-type: none"> 1. a translation into Polish of the diploma or other document entitling the student to study at the Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Ministry of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul; 2. a photocopy of the document confirming the legalisation of the stay (the original to be presented to the University for confirmation). It is possible for a candidate to be admitted to the entrance examination without a photocopy of the document confirming the legalisation of residence and to provide it only in the event of a positive outcome of the entrance examination.
7.	Top quality achievements	<p>The candidate meets one of the following conditions:</p> <ol style="list-style-type: none"> 1. obtained research funding from the "Pearls of Science" programme; 2. participates in a research project funded by either a national or international competition and is a co-author of a publication in a peer-reviewed journal; 3. has either received an individual prize or has made a significant contribution to an achievement for which a team prize has been won in a prestigious international competition involving university students from at least five countries, excluding competitions organised as part of international scientific conferences, and has co-authored a publication in a peer-reviewed journal.

4.	Assessment criteria	<ol style="list-style-type: none"> 1. Candidates for the Doctoral College of International Relations will be recruited on a competitive basis, within the available quota of seats. 2. Admission to the Doctoral School for the training program in the scientific discipline of international relations is determined by the result of the competition expressed in points. 3. Points are awarded for: the dissertation project accepted by the proposed supervisor, previous scientific achievements and activities in the student scientific movement, answers during the oral qualifying examination to questions concerning the dissertation project and the candidate's general knowledge in the scientific discipline. 	
Specific assessment criteria			
	1. Preliminary design dissertation project	<p>Acceptance by the proposed academic supervisor; Volume of 20-40 thousand characters with spaces, content including at least: introduction and statement of the research problem with justification, review of the literature on the subject, methodology and research methodology; planned content of the dissertation, Harvard-style bibliography</p>	0-30 points
	2. Scientific publications	<p>Include a copy of the publication or a certificate of acceptance for publication:</p> <ol style="list-style-type: none"> a. 5 points - Articles published in journals in Scopus, Web of Science, ERIH Plus databases, as well as author's monographs and chapters in monographs published in publications from the MNiSW list. b. 3 points- Other articles in journals on the list of MNiSW journals, or chapters in collective works published in MNiSW list publications. 	0-10 points.

		c. 1 point - other scientific publications.	
	3. Participation in research projects	Include confirmation of participation from the project manager or award decision. a. 3 points - the role of contractor or manager in projects of NCN, NCBiR, MNISW, H2020, ERC, European Commission and other foreign institutions and organisations; b. 1 point - contractor or manager role in other projects.	0-5 points
	4. Activity in scientific circles, participation in organising committees of conferences or activities popularising science	A certificate from the organisers of the event and, in the case of scientific circles, a certificate issued by the supervisor of the scientific circle should be enclosed. The Commission awards a number of points based on a qualitative assessment of the achievements.	0-5 points
	5. Active participation in scientific conference (with paper, poster, etc.)	Include the conference programme and a certificate/confirmation from the organisers. a. 1 point - student-doctoral conference, b. 2 points - Polish national/wide conference, c. 3 points - conference international (min. 30% of participants with papers from outside the organizer's country)	0-5 points
	6. Academic scholarships and prizes awarded within and outside the University, participation in student exchange programmes (Erasmus+, Most, others)	Include a certificate, confirmation or diploma. The Commission awards a number of points based on a qualitative assessment of the achievements.	0-5 points
	7. Preliminary oral exam - discussion of submitted doctoral dissertation project		0-20 points
	8. Oral entrance exam - assessment of general knowledge from the scope of a given discipline Questions drawn at random from the list of examination topics.		0-20 points
	Minimum number of points required to be successful in the recruitment procedure	60 points	
	Maximum number of points possible to obtain during the recruitment procedure	100 points	
5.	Language of the recruitment procedure	Polish or English	
6.	Required documents	<ol style="list-style-type: none"> 1. an application for admission to the Doctoral School printed from the IRK/IRC system, signed by the candidate together with the consent for the processing of personal data for the purposes of the admission procedure and possible training at the Doctoral School of the University of Wrocław. 2. a photocopy of the diploma of completion of the second degree or a uniform master's degree or other document entitling the candidate to apply for admission to the doctoral school (the original will be available for inspection to confirm conformity 	

		<p>with the original). Diplomas obtained abroad require authentication in the form of legalisation or an apostille and translation into Polish by a sworn translator (entered in the list of sworn translators kept by the Minister of Justice) or a sworn translator from the EU (if there is a sworn translator institution in the country) or a Polish consul;</p> <ol style="list-style-type: none"> 3. a written opinion of a scientific supervisor selected from among the independent scientific employees of the Faculty of Social Sciences of the University of Wrocław, related to the scientific discipline of international relations, on the dissertation project, together with a declaration of taking the candidate under scientific supervision. A list of potential supervisors is published on the College of International Relations doctoral website; 4. preliminary dissertation project; 5. a certificate or attestation of English language proficiency at B2 level or equivalent (FCE, TOEFL-550, IELTS 5.5-6.0, BEC Vantage and other equivalent international certificates) and for STER candidates C1 (CAE, TOEFL-95, IELTS 7.0, BEC Higher and other equivalent international certificates); candidates for whom English was the language of instruction at a previous level of education or is the mother tongue are exempt from presenting the certificate; 6. a photocopy of the document confirming legalization of residence with the original for inspection (in the case of foreigners); it is possible for a candidate to be admitted to the entrance exam without a photocopy of the document confirming legalization of residence and to provide it only in case of a positive result of the entrance exam; 7. a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model); 8. documents should be submitted in Polish or English; 9. confirmation of payment of the recruitment fee.
7.	Achievements of the highest quality (<i>requirements defined by the council of a scientific discipline</i>)	The Discipline Council has not specified the highest quality achievements.

RECRUITMENT RULES		
1.	Form of the recruitment procedure	The admission procedure consists of two stages. Stage one: assessment of the research project, related to the subject of the planned doctoral dissertation (0-35 points). Stage two consists of the following: 1) assessment of the examination (0-50 points); 2) assessment of aptitude for conducting scientific research (based on previous scientific activity) (0-15 points).
	oral recruitment examination	
2.	Content of the qualifying examination	1) the state of research in the field of the presented research project (the subject of the planned doctoral dissertation); 2) newer methodological trends in the discipline indicated by the candidate; 3) the methodology of scientific work in the discipline indicated by the candidate
3.	Recommended literature	
4.	Assessment criteria	
	Specific assessment criteria	1) The assessment of the research project (0-35 points) is based on: <ul style="list-style-type: none"> • the formulation of the research problem undertaken, • justification of the research purpose, • the location of the project in the state of research; • indication of the research methodology • way of compiling the bibliography and its functionality. <p>The assessment takes into account the project's place in the chosen discipline, the clarity of the topic and research objective, the structure and precision of the argument, and linguistic correctness (including the use of appropriate specialist language).</p> <p>The entire document should be 5-8 pages long, i.e. 10,000-16,000 characters with spaces, including a bibliography of no more than 3 pages (Times New Roman font size 12, line spacing 1.5). The project, with a title, must contain the following elements: A) formulation of the research problem; B) justification of the purpose of the research (if the proposed research is related to or a continuation of the research conducted in the master's thesis, it is necessary to specify precisely what new elements the planned doctoral dissertation will contain and what its originality will be in relation to the work and research previously conducted by the candidate); C) position of the project in the state of research; D) indication of the research methodology; E) bibliography.</p> <p>Minimum number of points required: 20; obtaining fewer points means a negative assessment in the qualification procedure.</p>

		<p>Candidates whose research projects have been assessed negatively will not proceed to the second stage of the selection process.</p> <p>2) The assessment during the examination (0-50 points) is based on:</p> <ul style="list-style-type: none"> • knowledge of the state of research on the subject of the planned doctoral dissertation, • knowledge of recent methodological trends in the discipline indicated by the candidate; • knowledge of the methodology of scientific work in the discipline indicated by the candidate. <p>The examination is considered passed if the candidate has obtained at least 30 points; a lower number means a negative mark in the selection procedure.</p> <p>3) Assessment of predisposition to conduct scientific research (0-15 points) is made on the basis of previous scientific activity: scientific publications published or accepted for publication (0-5 points), documented participation with a paper in scientific conferences organised by universities or scientific institutions (0-3 points), documented participation in research projects (0-3 points), completed domestic and foreign internships (0-2 points), obtained scientific scholarships and distinctions for scientific achievements, etc. (0-2 points)</p> <p>First-degree graduates or students who have completed the third year of long-cycle studies and have demonstrated the highest quality scientific achievements are awarded the maximum number of points in this section.</p> <p>The final score in the recruitment process is the sum of the points awarded for each stage of the selection process.</p> <p>Admission to the Doctoral College in Linguistics and Literary Studies is determined by the results of a competitive admission procedure. Only candidates who have passed the examination (minimum 55 points) are admitted; eligibility for admission (according to the limit of places) is determined by the place on the ranking list arranged according to the following rules:</p> <ol style="list-style-type: none"> 1) the number of places available at the Doctoral College in Linguistics and Literary Studies is divided into two equal pools for candidates who have achieved the highest results in the selection process within their chosen discipline and who fall within the limit of places allocated to that discipline. In the event of an odd number of places, one place will be taken by the candidate who obtained the highest results in the qualification procedure, regardless of the discipline, according to the joint ranking list; 2) if the pool of places provided for a discipline is not filled by successful candidates, the unfilled places shall be transferred to the other discipline; 3) if more than one person is ranked last (both within a discipline and in a common place), the number of points for the examination determines admission; the number of points; for publications is another subsidiary criterion; another subsidiary criterion is the number of points for participation in conferences.
--	--	--

	Minimum number of points required to be successful in the recruitment procedure	55 (with a minimum of 20 for the research project, a minimum of 30 for the exam)
	Maximum number of points possible to obtain during the recruitment procedure	100
5.	Language of the recruitment procedure	Polish language
6.	Required documents	<ol style="list-style-type: none"> 1) photocopy of the diploma confirming the possession of a master's degree or equivalent (original for inspection) or a diploma of completing first-cycle studies or a certificate of completion of three years of long-cycle studies and a document certifying participation in the "Pearls of Science" programme or a first-cycle diploma/certificate of completion of the third year of long-cycle studies and publications, being a scientific achievement of the highest quality; 2) an application for admission to the Doctoral School printed from the IRK system, signed by the candidate; 3) evidence of knowledge of a modern foreign language at a level of at least B2; 4) a declaration of readiness to undertake supervision of a candidate signed by a research worker or research and didactic worker holding a doctoral habilitated degree, employed at the University of Wrocław; one worker may submit a maximum of four such declarations; 5) any documents on aptitude for scientific work: <ul style="list-style-type: none"> – scientific monograph, peer-reviewed monograph (photocopy of title and editorial page, including ISBN number and names of reviewers; if internet publication, also DOI number); – peer-reviewed scientific publications in a journal or volume collective (photocopy of title and editorial page, including ISSN or ISBN; table of contents, first page of text; if applicable, link to online resource, DOI number); – certificate of acceptance for publication after peer review of a scientific publication in a journal or collective volume, issued by the editor of the journal or volume; – a certificate of having presented a paper at a scientific conference, issued by its organiser; – certificate of participation in research projects issued by their managers (indicate form and scope of work); – a certificate for academic internships (stays and placements under the ERASMUS programme are not recognised as such); – a certificate of any distinctions and scholarships obtained for academic achievements (the Rector's Scholarship for best students is not considered as such); <p>It is the responsibility of the candidate to duly and clearly document achievements indicating aptitude for academic work. The Recruitment Committee will not take into account achievements that do not meet the above conditions. It is not possible to supplement documents once the documentation has been accepted by the secretaries of the admissions committee;</p>

		<p>6) a statement of the candidate for the Doctoral School at the University of Wrocław, including information on whether they hold a doctoral degree, whether they are a doctoral student at another college of the Doctoral School of the University of Wrocław or another Doctoral School (according to the required model);</p> <p>7) the candidate's statement of choice of discipline;</p> <p>8) confirmation of payment of the recruitment fee.</p> <p>9) a research project signed by the candidate, related to the subject of the planned doctoral dissertation - printout: Times New Roman font size 12, line spacing 1.5 (5-8 pages).</p> <p>The project should also be submitted in electronic form, in the IRK system (step 1, documents tab), in the form of text files saved in rtf and pdf formats, with the candidate's name given only in the file name. The candidate's name or the name of the future supervisor must not appear in the content of the project or the bibliography.</p> <p>Foreigners additionally submit:</p> <ol style="list-style-type: none"> 1. a translation into Polish of the diploma or other document entitling the student to study at the Doctoral School. The translation must be certified by a Polish sworn translator (entered in the list of sworn translators kept by the Ministry of Justice), a sworn translator from the EU (if there is a sworn translator's institution in that country) or a Polish consul; 2. a photocopy of a document confirming legalisation of residence with the original to be presented for verification. It is possible for a candidate to be admitted to the qualification examination without a photocopy of the document confirming the legalisation of residence and to provide it only if the examination is successful.
7.	Top quality achievements	<ol style="list-style-type: none"> 1) participation in the "Pearls of Science" programme, or 2) publication, prior to the start of recruitment, of a scientific article in a journal which has been assigned a number of points of 100 or more in the list of scientific journals and peer-reviewed materials of international conferences drawn up in accordance with the regulations issued pursuant to Article 267, section 2, point 2 of the Act of 20 July 2018 – Law on Higher Education and Science has been assigned a score of 100 points or more, or 3) publication of a peer-reviewed scientific monograph in a scientific publishing house included in the list of MNiSW in force in the year of publication.
